

KINDER MORGAN CANADA LIMITED

KINDER MORGAN CANADA LIMITED FILES Q2 CONSOLIDATED FINANCIAL STATEMENTS AND MANAGEMENT'S DISCUSSION & ANALYSIS

CALGARY, ALBERTA, July 28, 2017 - Kinder Morgan Canada, Limited (TSX: KML) today filed on SEDAR its unaudited interim consolidated financial statements and management's discussion and analysis for the three and six month periods ended and as of June 30, 2017.

Kinder Morgan Canada Limited (TSX: KML) is responsible for and is the holder of a 30 percent interest in a portfolio of strategic energy infrastructure assets across Western Canada. The financial results of the entire suite of assets held by Kinder Morgan Canada Limited Partnership (Business) have been consolidated into the financial results of KML. KML investors are reminded that KMI holds a majority 70 percent voting interest in KML and a corresponding majority 70 percent economic interest in the entirety of the business contributing to financial results discussed in this new release. Therefore, unless the context otherwise requires, references to KML in this news release are references to the Business in which the holders of restricted voting shares of KML have a 30 percent interest. The Trans Mountain Pipeline system, with connections to 20 incoming pipelines and current transportation capacity of approximately 300,000 barrels per day (based on throughput of 80 percent light oil and refined products and 20 percent heavy oil), is the only Canadian crude oil and refined products export pipeline with North American West Coast tidewater access (specifically, British Columbia and Washington State). In Alberta, KML has one of the largest integrated networks of crude tank storage and rail terminals in Western Canada and the largest merchant terminal storage facility in the Edmonton market. KML also operates the largest origination crude by rail loading facility in North America. In British Columbia, KML controls the largest mineral concentrate export/import facility on the west coast of North America through its Vancouver Wharves Terminal. Through its Puget Sound pipeline system, KML ships crude oil to refineries in Washington state and its Cochin Pipeline system transports light condensate originating from the United States to Fort Saskatchewan, Alberta.
