

**KINDER MORGAN
CANADA LIMITED**

KINDER MORGAN TO PARTICIPATE IN INVESTOR CONFERENCE

CALGARY, December 5, 2017 – Representatives of Kinder Morgan Inc. (KMI) which owns a controlling interest in Kinder Morgan Canada Limited (KML) intend to present at the Wells Fargo 2017 Pipeline, MLP and Utility Symposium on Wednesday, December 6, 2017 in New York, New York to discuss the business and affairs of KMI, which is expected to include discussion of KML.

Interested parties may access the materials to be presented at the event in the Investor Materials section of KML's web site at: <https://www.kindermorgancanadalimited.com/>. The presentation will also be accessible by audio webcast (both live and on demand) on KML's website through the same web address. The live presentation is scheduled to begin at 11:30 a.m. EST, and an archived webcast will remain available for 90 days on KML's website through the above address.

About Kinder Morgan Canada Limited (TSX: KML). KML manages and is the holder of a minority interest in a portfolio of strategic energy infrastructure assets across Western Canada. The financial results of the entire suite of assets held by Kinder Morgan Canada Limited Partnership (Business) have been consolidated into the financial results of KML. KML investors are reminded that KMI holds a majority voting interest in KML and a corresponding majority economic interest in the entirety of the business contributing to financial results discussed in this new release. Therefore, unless the context otherwise requires, references to KML in this news release are references to the Business in which the holders of restricted voting shares of KML have a minority interest. The Trans Mountain Pipeline system, with connections to 20 incoming pipelines and current transportation capacity of approximately 300,000 barrels per day (based on throughput of 80 percent light oil and refined products and 20 percent heavy oil), is the only Canadian crude oil and refined products export pipeline with North American West

Coast tidewater access. In Alberta, KML has one of the largest integrated networks of crude tank storage and rail terminals in Western Canada and the largest merchant terminal storage facility in the Edmonton market. KML also operates the largest origination crude by rail loading facility in North America. In British Columbia, KML controls the largest mineral concentrate export/import facility on the west coast of North America through its Vancouver Wharves Terminal. Through its Puget Sound pipeline system, KML ships crude oil to refineries in Washington state and its Cochin Pipeline system transports light condensate originating from the United States to Fort Saskatchewan, Alberta.
